Welcome at HEBO Spezialglas

References

We are pleased to have a successful cooperation with the following companies and institutes:

HEBO Spezialglas

HEBO Spezialglas was founded in 1989 and supplies the optical industry world-wide as well as end users of optical components and systems.

Keeping a permanent stock of more than 20 tons of optical glasses and filter glasses as well fused silica and many other materials, we are able to react in a short time to your requests.

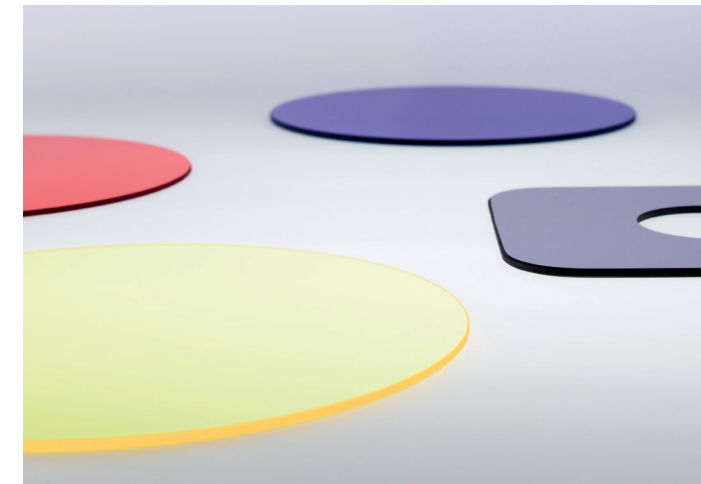

Color Filter Glass HEBO-Series

Own filter glasses; 75 different types of absorption filters, production of small and large volumes according to customer specifications; maximum size 300 x 200 x 10 mm; polished standards ex stock with sizes 50 x 50 x 1 / 2 / 3 mm

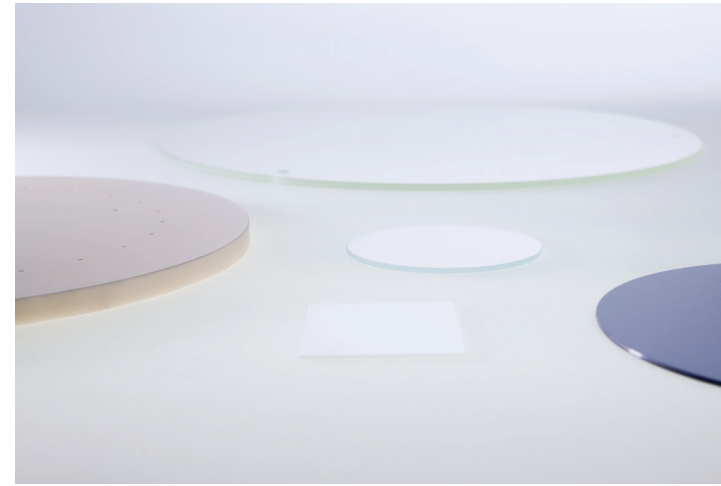

IR blocking filter

Coated absorption filters, various ranges available, standards Ø 25 mm with housing available from stock

Various filter glasses

Material from all major manufacturers; processed according to your specifications

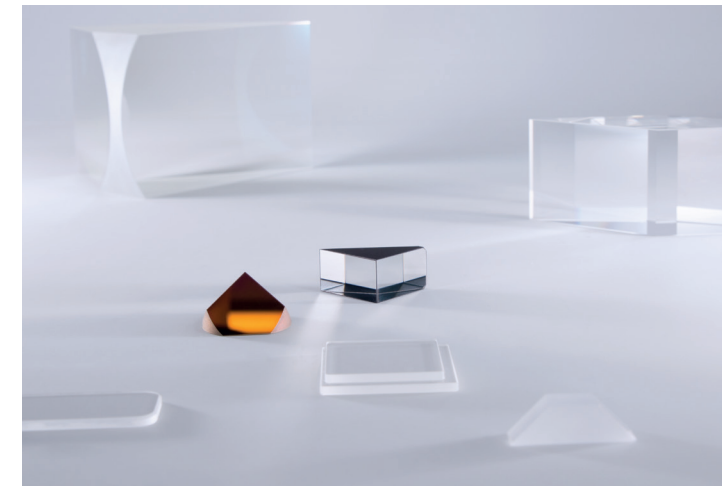

Wafer

Manufacturing by our partner company Valley Design USA. Various materials and measurements, highest precision, thicknesses starting at 10 µm

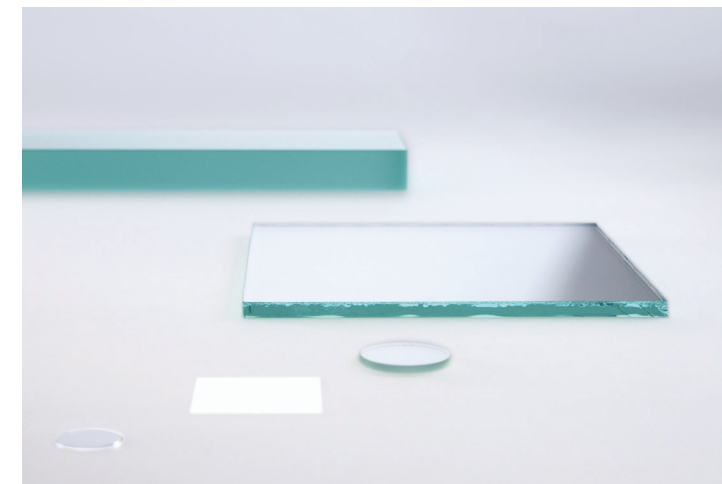

Round optics

Spherical, cylindrical and achromatic lenses including coating

Flat optics

Prisms, mirrors, plates, wedge plates, windows and protective covers made of various materials, also available with coating

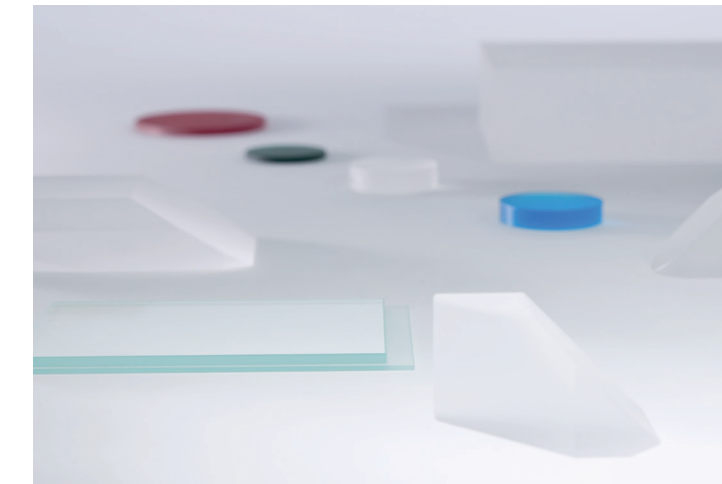

Technical glasses

Drawn glass, float glass and rolled glass of various manufacturers. Available with blank or processed surfaces

Fused Silica / Quartz

Various types of all suppliers as well as two own products (FSUV 1 and FQVIS 2) are available, raw material and finished components. Standards 50 x 50 x 1 / 2 / 3 mm are available from stock

Semi-finished products

Manufacturing of round discs and plates, prism raw parts and plates of various materials. Very short delivery times due to stock keeping of many current and obsolete glass types

Special products

Components made of sapphire, ceramics, AlN, Al₂O₃, KCl, NaCl, Ge, ZnS, ZnSe, Si, CaF₂, stainless steel, copper and many more materials

Raw glasses

Optical glass and filter glass of various manufacturers is available as blocks, bars or plates

We look forward receiving your inquiry – why not test us?
